HIGHLIGHTS OF THE COMPANY'S PERFORMANCE:

During the year under consideration, total revenue amounted to Rs. 30,878.07 Lacs as against Rs. 39,021.67 Lacs in the preceding financial year and Profit after tax stood at Rs. 945.72 Lacs as against Rs. 742.76 Lacs in the preceding financial year.

The Company has been able to increase its profit margin during the year under review by 27.33%. However, the Company has failed to increase its revenue from operations during the year due to various factors like fluctuations in the exchange rate of US Dollar vis-à-vis Indian Rupee and steep decrease in prices of iron and steel products and volatile market conditions. Moreover, the decrease in revenue is mainly due to per unit (MTs) prices remaining low during the year as compared to the preceding year. However, despite of such adverse factors, the Company had sustained sales performance and achieved positive profits during the year. The Management is of the view that in the coming years the ship breaking industry as well as iron and steel sector will be stable and with expected boost in the economy the requirement of iron and steel will increase which will help the Company to move towards

HARIYANA SHIP BREAKERS LIMITED

its sustained path of growth.

Ship Breaking Unit (Bhavnagar)

During the financial year 2016-17, ship breaking unit at Alang Ship Breaking Yard has performed very well. During the year under review, the sales turnover of Ship Breaking Unit has been increased by almost 7 times. However, due to various factors like fluctuations in the exchange rate of US Dollar vis-à-vis Indian Rupee and steep decrease in prices of Iron and steel products and volatile market conditions, the unit was unable to increase its profit margin. The Management is of the view that, in the coming years the ship breaking industry will become stable and with expected boost in the economy, the requirement of iron and steel will increase which will help the Company to move towards its sustained path of growth.

Trading Unit (Bhavnagar)

During the financial year 2016-17, the trading unit (Bhavnagar) has not been able to perform well in terms of sales turnover due to adverse market conditions like decrease in prices of

Iron and steel products and fluctuations in the exchange rate of US Dollar vis-à-vis Indian Rupee. However, in such an uncertain market environment in Iron and Steel industry, the management took cautious approach to the prevalent affairs and avoided any venturesome business decision in the interest of the Company which resulted in increased profit margin of the unit. Moreover, the management hopes that the trading unit will show an increase in terms of sales as well as profits in the coming years.

Trading & Investment Unit, Mumbai (HO)

During the year under review, the Mumbai Trading Unit has outperformed in terms of sales turnover and profit margins. The sales turnover for the FY: 2016-17 of Trading (Mumbai) was Rs. 163.61 Crores and profit was Rs. 19.46 Crores. GLOBAL ECONOMIC INSIGHT

The world economy is gaining its stability and moving towards a path of encouraging growth, after recovering from a sustained period of sluggishness. Supported by buoyant financial markets, along with improvement in manufacturing and trade sectors, the global economy is expected to grow from 3.1% in 2016 to 3.5% in FY17 [source: IMF].

The performances of advanced economies had been promising in the second half of 2016. US-based firms are anticipating a growth in their future demand. The US economy recorded a lower rate of unemployment as the newly elected President has vouched for an expansion of domestic investments and production within the country. Domestic demand also increased in the UK following Brexit. Eurozone witnessed an increased domestic demand after sustaining low growth and deflationary tendencies for some time because of geopolitical uncertainties.

If these trends continue, the world economy is expected to gain back its momentum in the medium term. However, the growing trend towards protectionism could prove detrimental to global trade.

Today, however, the major players of the world economy are the developing countries and their emerging markets. These countries account for 75% of global growth; almost twice than the share they had two decades ago. Though the growth patterns in these economies are varied, there is a general sense of cautious optimism all over the world.

The picture of emerging markets and developing economies (EMDEs) remained diverse throughout 2016-17.

- China witnessed a stronger than expected growth, backed by constant policy stimulus and consolidation after a sustained period of break-neck speed
- Latin American countries like Brazil and Argentina and Turkey witnessed weaker economic activities, as there was sharp fall in their tourism revenues
- Economic activities were better than expected in Russia

It is planning to invest Rs 25 trillion (US\$ 376.53 billion) in infrastructure over the next three years. Rs 8 trillion (US\$ 120.49 billion) will be used to develop 27 industrial clusters, while Rs 5 trillion (US\$ 75.30 billion) will be used for building roads, railways and port connectivity.

Changing rural demand: India's rural sector is slowly undergoing a transformation. Consumption patterns of people are slowly changing, facilitated by improved networking. People in villages are seeking information proactively from multiple sources, which also include social media.

A sum of Rs 3,960 billion has been allocated to rural India in 2017-18 by the Union Budget. The intention of the Government is to electrify every village in the country by 2018 and by 2019, every village should have road connectivity.

HARIYANA SHIP BREAKERS LIMITED

Higher agricultural credit, increased allocation for irrigation projects, a crop insurance scheme for farmers and enhanced allocations for MGNREGA in the Union Budget will also help boost rural income. The implementation of the Seventh pay Commission will also bolster the demand across semi-urban and rural India.

Policy reforms: 2016-17 remained significant for the country because of several policy reforms implemented by the Government of India. The reforms include the creation of Monetary Policy Committee (MPC), Insolvency and Bankruptcy Code (IBC), redesigning of the FRBM framework, the passage of the Goods and Services Tax (GST) Act, and finally, the demonetization of high-denomination notes to move towards a less-cash formal economy.

The GST is being seen as a crucial reform, as it is anticipated to bring greater transparency in the country's indirect tax structure. On the other hand, despite causing some temporary hardship, demonetization is expected to yield long-term benefits for the country. It would bring formalisation and digitalisation of the economy.

OUTLOOK

OVERVIEW

The Company is now a diversified Company with ship breaking, trading activities and investment activities. The Company has also diversified into manufacture of industrial gases, real estate and construction by going into partnerships with experienced entrepreneurs in the field. During the financial year 2016-17, though total revenue of the Company has been decreased, the Company was able to increase its Net Profit. During the year under review,

the Company has earned net profit of Rs. 945.72 Lacs against Rs. 742.76 Lacs of preceding financial year.

SEGMENTAL REVIEW

During the financial year 2016-17, the Company ship-breaking unit at Alang Ship Breaking Yard and Trading Unit, Mumbai has shown an increase in sales turnover, however, the ship breaking unit is expected to grow substantially in coming years. Due to fluctuating and volatile prices of old ships, iron and steel products coupled with fluctuation in value of Indian Rupee vis-à-vis US Dollar during the year, the net profit margins of this segment has been affected. The Trading Unit, Bhavnagar and Mumbai have performed well in terms of profit during the year under consideration. However, the Management is of the view that, in the coming years the ship breaking industry will be stable and with expected boost in the economy the requirement of iron and steel will increase which will help the Company to move towards its sustained path of growth.

Ship Breaking Unit (Bhavnagar):

During the financial year 2016-17, ship breaking unit at Alang Ship Breaking Yard has performed very well. During the year under review, the sales turnover of Ship Breaking Unit has been increased by almost 7 times. However, due to various factors like fluctuations in the exchange rate of US Dollar vis-à-vis Indian Rupee and steep decrease in prices of Iron and steel products and volatile market conditions the unit was unable to increase its profit margin. The Management is of the view that, in the coming years the ship breaking industry will be stable and with expected boost in the economy the requirement of iron and steel will increase which will help the Company to move towards its sustained path of growth.

Trading Unit (Bhavnagar):

During the financial year 2016-17, the trading unit (Bhavnagar) has not been able to perform well in terms of sales turnover due to adverse market conditions like decrease in prices of Iron and steel products and fluctuations in the exchange rate of US Dollar vis-à-vis Indian Rupee. However, in such an uncertain market environment in Iron and Steel industry, the management took cautious approach to the prevalent affairs and avoided any venturesome business decision in the interest of the Company which resulted in increased profit margin of the unit. Moreover, the management hopes that the trading unit will show an increase in terms of sales as well as profits in the coming years.

Trading & Investment Unit, Mumbai (HO):

During the year under review, the Mumbai Trading Unit has outperformed in terms of sales turnover and profit margins. The sales turnover for the FY: 2016-17 of Trading Unit (Mumbai) was Rs. 163.61 Crores and profit was Rs. 19.46 Crores. The Management is hopeful that in the coming financial years the Trading Unit, Mumbai will achieve new heights in terms of sales turnover and profits.

Steel & Power Unit (Bangalore):

Steel and Power unit has been shut down during the preceding financial year due to issues of uninterrupted availability of raw materials, local mining issues, rupee volatility and other similar factors at Hassan, Karnataka.

HARIYANA SHIP BREAKERS LIMITED

Risk Management

The Company is exposed to the risk from the market fluctuations of foreign exchange as well as the fluctuation in the price of iron and steel. The Company's raw material is old ships which are purchased from the international market on credit ranging up to 180 days to 360 days. The Company is adopting policy of full hedging or covering the foreign exchange requirement. The Company is regularly monitoring the foreign exchange movement and suitable remedial measures are taken as and when felt necessary.

Though the Company is employing such measures, the Company is still exposed to the risk of any heavy foreign exchange fluctuation.

Likewise the Company's finished products are mainly re-rollable scrap generated from ship breaking and the price of the same is linked to the market rate for iron and steel. Any fluctuation in the price of the iron and steel will affect the profitability of the Company.

In addition to the above, the Company is also exposed to the risk of fluctuation in the real estate and construction and redeveloping market as the Company has invested some of its surplus funds in partnership firm engaged in such business. However, the Directors considering their past experience are confident that the Company will not face any major set back in these areas.

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls over financial reporting of **Hariyana Ship Breakers Limited** ("the Company") as of March 31, 2017 in conjunction with our audit of the financial statements of the company for the year ended on that date. [in which are incorporated the Returns for the year ended on that date audited by the branch auditors of the Company's branches at Mumbai HO and Bangalore].

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing as specified under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by the Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the internal financial controls system over financial reporting.

Meaning of Internal Financial Controls Over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorized acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls Over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion and according to the best of information and explanations provided to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2017, based on the internal control over financial reporting, considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India.

Other Matters

Our aforesaid reports under Section 143(3)(i) of the Act on the adequacy and operating effectiveness of the internal financial controls over financial reporting insofar as it relates to Mumbai Branch and Bangalore, are based on the corresponding reports of the auditors of such branches.
